T. C	Description AMERICAN 220 MARKATON 2281 MARKA	as s
	You are the head of the election committee in your village. Each Political party is associated with a unique number and the	555
228	votes are represented as an integer array A. where each element contains the party number voted for by the villagers. For a	
	party to win, they must have a majority of votes. our task is to find and return an integer value denoting the winning party's number. Return -1 if there is no party with a majority.	
	Note: If only one vote is there he is the winner.	WED
